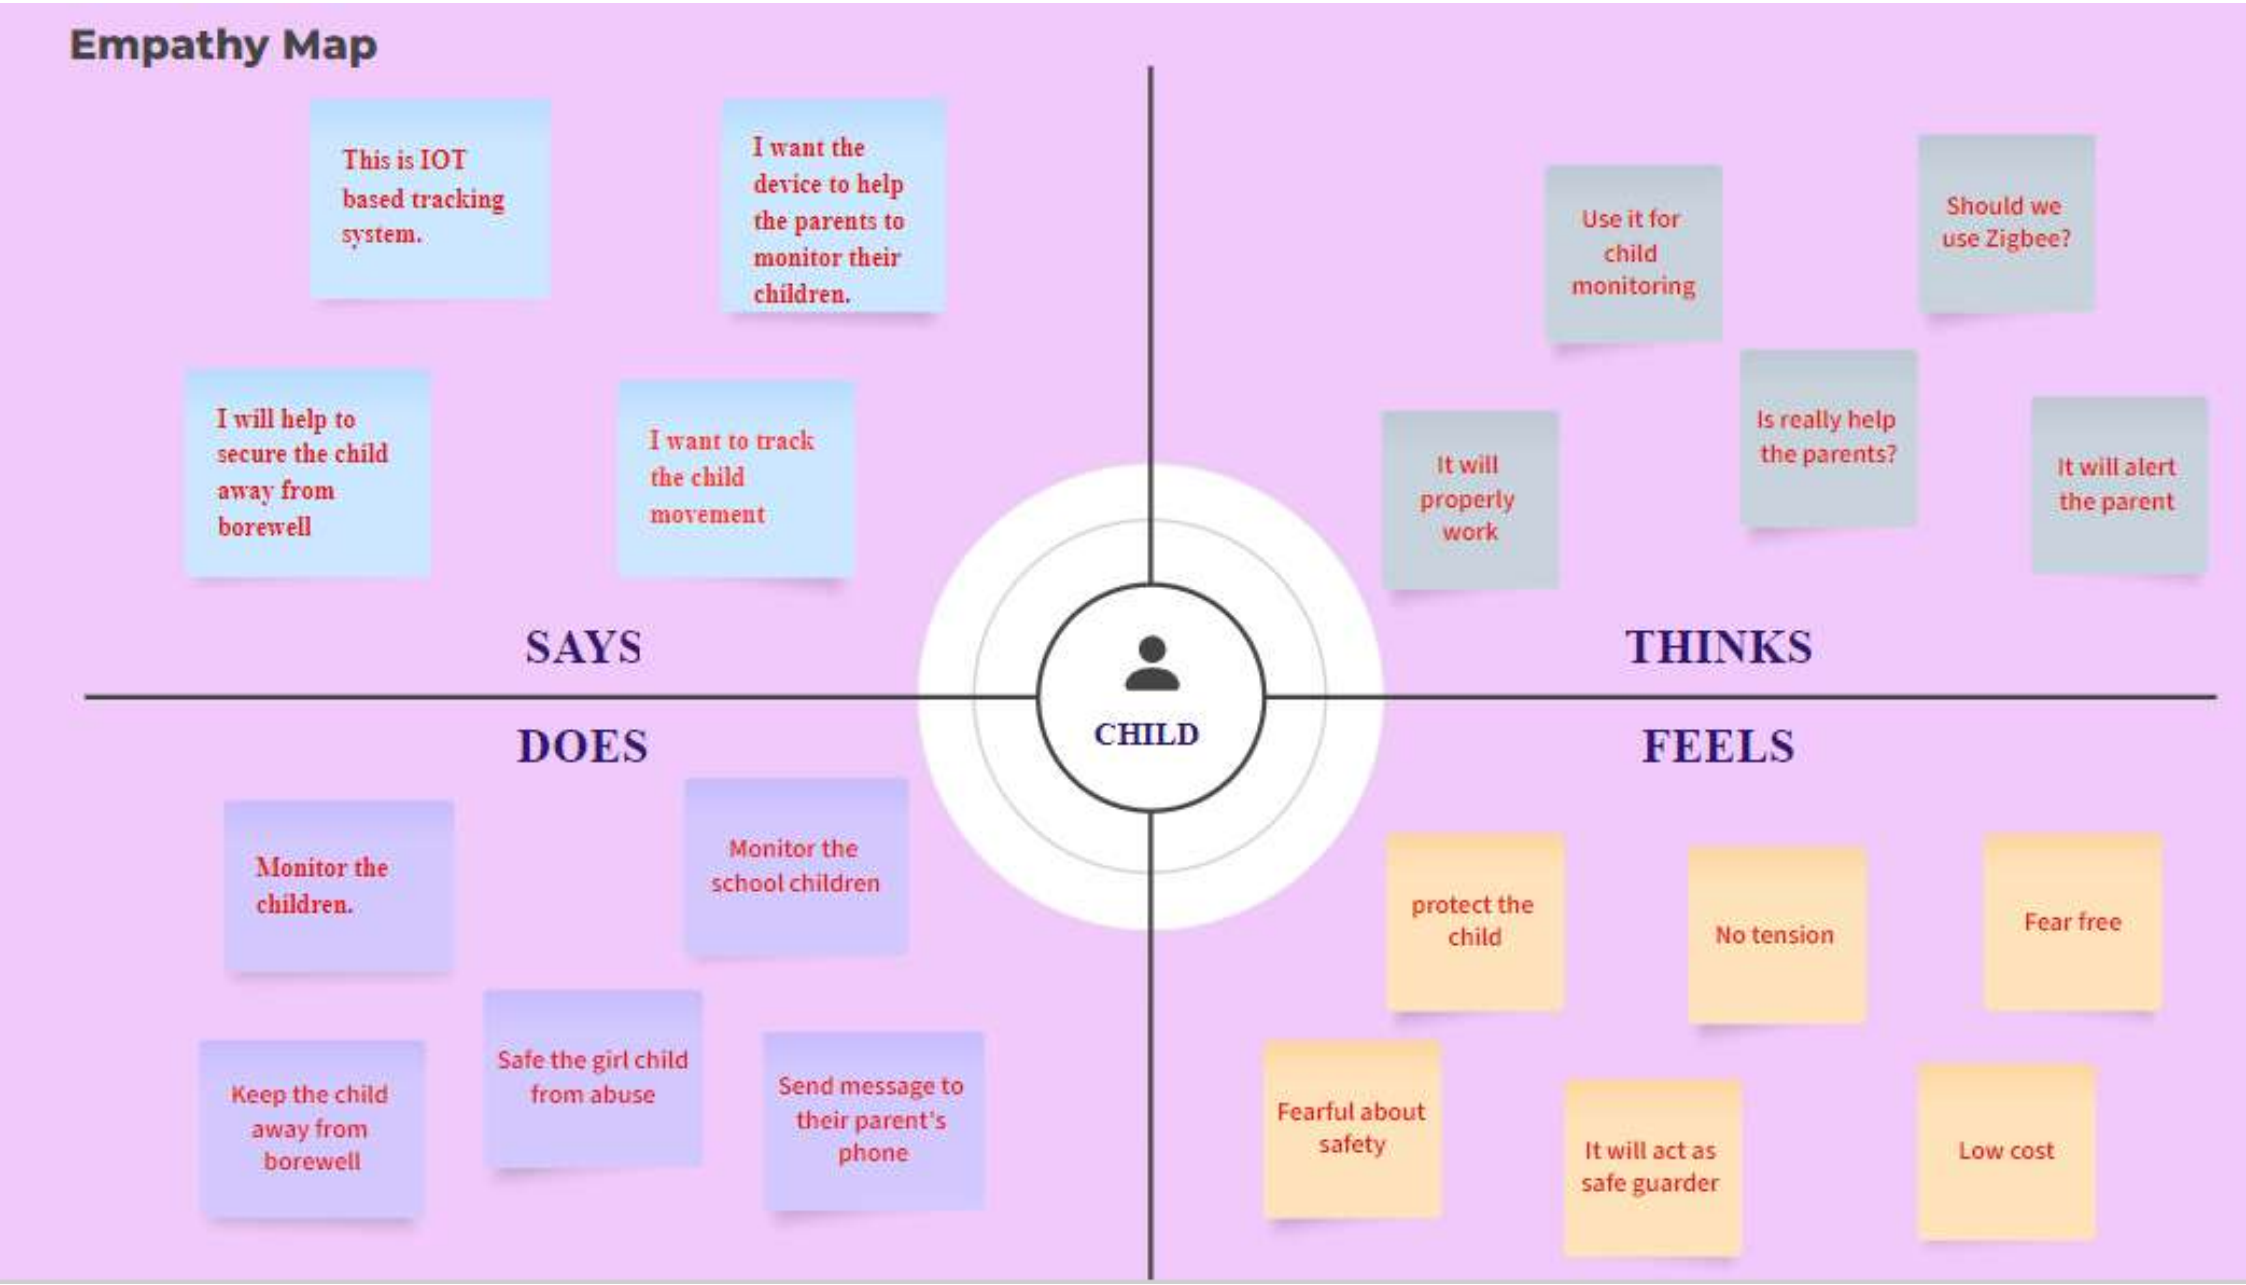
Empathy Map



This is IOT based tracking system.
I want the device to help the parents to monitor their children.
I will help to secure the child away from borewell
I want to track the child movement
SAYS
Use it for child monitoring
Should we use Zigbee?
It will properly work
Is really help the parents?
It will alert the parent
THINKS
CHILD
DOES
Monitor the children.
Monitor the school children
Keep the child away from borewell
Safe the girl child from abuse
Send message to their parent's phone
FEELS
protect the child
No tension
Fear free
Fearful about safety
It will act as safe guarder
Low cost
